

Facilities Committee
May 15, 2012
Administrative Service Center
11:30 am

MINUTES

Members present: John Braun via phone; Judy Weaver via phone; Emmett O'Connell via phone; Gwen Culp; Rick Homchick; Jeff Kleingartner; and Brenda Lane, recorder.

Members absent: Cheryl Heywood

Gwen reviewed the agenda and reported that she had received a request from a local library board to attend the TRL Facilities Committee meetings. Gwen told her that committee meetings were not subject to the Open Public Meetings Act but that she would ask the Facilities Committee to consider her request and report back. Emmett stated that he did not have a problem with allowing the public to attend committee meetings as long as they understood that they can only observe the meeting. He recommended that the question be brought to the full Board for further discussion and/or future action. John and Judy agreed that the full Board should have this discussion as it sets a precedent for all committee meetings which are working meetings between the Board and staff. It was noted that only 3 Board members attend committee meetings and no decisions are made.

Building Project Status

- a. Ocean Park – Gwen reported that the newspaper ads for solicitation of bids on the Ocean Park remodel project will be placed today, May 15, with a due date for bids of June 5th, 2012. The advertisement outlines the scope of the project as well as a bid range of \$650-700K. The bid does not include shelving or furniture. A bidder's conference is scheduled next Monday, May 21, in Ocean Park.

Gwen reported that she met with the Ocean Park staff on May 11 and is scheduled to meet with the Ocean Park Friends and staff on May 15 to review project plans

- b. Oakville – Gwen reported that the letter of understanding has not been mailed to the City of Oakville. It has been edited slightly, will be sent to Emmett today for approval and signature, and will be mailed before the end of the week.

Action: Gwen will meet with the Ocean Park staff and Friends this week. Gwen and/or Rick will attend the bidder's conference in Ocean Park on Monday, May 21, 2012. Brenda will send Emmett the Oakville letter of understanding for approval and signature for dissemination by the end of the week.

1. **Service Point Assessment** – The service point assessment document (SPA) was presented for review. Gwen asked whether the current criteria still seemed appropriate. Emmett noted that on the distance element we used miles instead of minutes and asked whether the availability of transit service for an isolated area is considered. Emmett asked whether school district support is considered in the city/county support element and noted that school district support could be a significant factor in evaluating a new service point.

It was agreed that the current SPA is a good model with the additional criteria (school support, isolated area/transit) and that it should be used to review the current projects. Staff will make updates to the SPA and John will present the information at the May Board meeting. Gwen did note that the current SPA does not determine what “type” of service point it could be, e.g., kiosk, partnership library, or stand-alone library. After some discussion, it was suggested that there might be a need to add criteria for adding only a kiosk.

- a. **Morton** – The completed SPA was presented for Morton and it was noted that the additional criteria under discussion would likely indicate stronger support for Morton as it is an isolated area with lack of a transit system and support from the city/school district.

John agreed and recommended that Morton move forward in the next steps of planning as a service point. He also recommended that TRL staff communicate with Morton to outline our commitment and to document the next steps to be sure there’s a clear understanding on both sides.

Action: Forward the Morton SPA to the full Board for review. If approved, TRL staff will attend the Morton City Council meeting on May 29th, as well as draft a letter to the City of Morton outlining the SPA assessment. Gwen noted that by answering the question of a service point the city can frame their annexation efforts around a service point. There will be additional evaluation regarding service level.

Rainier - Gwen presented the SPA on Rainier and asked for comments. John stated that he felt that Rainier does not currently meet the criteria for a service point. We had a kiosk in Rainier but services were discontinued last year. Until there is an organized group asking for support, we should not move forward. Judy agreed.

Action: Present the Rainier SPA to the Board for review with a recommendation from the Facilities Committee that this does not currently meet the criteria for further consideration. Gwen will communicate that we can reconsider if/when there’s additional expression of need or support from the community. Judy recommended that we outline in writing what our process is to the appropriate entities so that everyone is clear on how to request a TRL service point and how TRL considers those requests so that the communities may address those considerations.

Cosmopolis – Gwen presented the SPA for Cosmopolis and stated that at the Board’s request, she contacted Mayor Vicki Raines. Mayor Raines stated that she originally asked for a kiosk in Cosmopolis. John stated that the current SPA may not be the right model to use if we are considering a kiosk. It was recommended that we re-evaluate our requirements for kiosk locations and communicate our findings to the Board for review and input. Judy agreed and again stressed that it is important to consistently communicate the

decision to Cosmopolis and to communicate the procedures to interested cities to outline TRL's commitment and what needs to be done by all parties to be considered a service point. John also asked that staff develop a notification process so that the SPA assessment, Board review and approval, and notification letters follow the same standard for everyone.

Action: The Committee recommends that a SPA for Cosmpolis be done using the additional criteria, then be presented to the Board for review and action. Upon Board review, staff will communicate with the Mayor of Cosmopolis and share the detailed SPA in order to be open to dialogue.

Action: Staff will work on a standard process for SPA assessment, Board review and approval and notification. Staff will work on defining standard requirements for kiosk locations, staffing and operations that will provide the best outcomes for the communities and for Timberland.

2. Next Meeting Date: The Committee agreed that a meeting should be scheduled in July or August.

Meeting adjourned at 12:20 pm
