

Facilities Committee
May 15, 2013
Administrative Service Center
12:00 noon

MINUTES

Members present: Corby Varness, Regina King, Cheryl Heywood, Gwen Culp, Rick Homchick, Jeff Kleingartner, and Brenda Lane; recorder.

Members absent: Stephen Hardy.

1. Updates

a. Ocean Park

Rick reported that there are a few items that need to be addressed before the certificate of occupancy will be issued. He expects those items to be completed by May 25, 2013. A mechanics lien has been received from the shelving manufacturer because they have not received payment from our shelving contractor who has now filed for bankruptcy.

b. Amanda Park Walkway

TRL has received a donation of \$5,000 to add a cover over the walkway at the Amanda Park Library. We need to determine whether the current walkway can support a cover and that the overall health of the structure is sound. TransOlympic Engineering, who specializes in design and analysis of structural and civil projects, has been contacted for the building evaluation. They were recommended by the Quinault Tribal Nation. Mark Leingang will look at the structural integrity of the building and walkway. Rick stated that the building evaluation will begin on May 20 to determine whether the building and walkway are structurally sound, and to provide load requirements and recommendations for the covered walkway.

c. Service Center Remodel Overview

Rick shared that the Director's office will be relocated and a new wall added for the Executive Assistant's area to create an office space. Architectural plans have been delivered and three contractors have been contacted for quotes. Timeline for completion is mid-June.

2. Hoodsport Property

Rick shared that TRL owns a piece of property near the Hoodsport Library but is not feasible for expansion or use by TRL. He said that the property is currently being

surveyed. He stated that this is an informational item only and wanted to inform the Board for possible future discussion.

3. Feasibility Study Presentations – Oakville and Morton

Rick shared the feasibility study documents with the Committee and stated that minimum standards for comfort, safety, and security, are included. Next steps are to contact the Oakville and Morton parties and schedule meetings to review the studies and identify next steps. In addition, a meeting with the Centralia College East is scheduled for May 21st.

4. Toledo Service Point Analysis (SPA)

Rick reviewed the inquiry from a private citizen who wanted to donate a building in Toledo for use as a library. Information has been presented to the potential donor and the City regarding the process of annexation. Rick reviewed the framework for drafting a Preliminary Service Point Analysis for Toledo. After a lengthy discussion, the recommendation is to wait for a response from the City and to open the topic for discussion at the Board meeting next week.

5. Policies for Review

There was a recommendation to forward the Building Fund and Facilities policies to the Policy Committee as written for review.

6. Next Meeting Date: TBD

7. Adjournment: Meeting adjourned at 2:15 pm
