- Timber revenue should not be impacted according to Department of Natural Resources (DNR)
- State timber sales are at 73% of the anticipated amount
- Actual FTE currently is 229.58 with an average salary of \$74,055; budgeted FTE for 2020 was 249.5 and for 2021 the proposed budget will be 240.15; there will be a 2020 cost savings due to open positions and the retirement incentive

- Discussion for future uses of the \$5M

Discussion on report: Cheryl states that we will bring to the next Board meeting new service style sheets and the priority list forward for uses of the \$5M. Eric continues to participate in webinars with an emphasis on budget planning during COVID. Trustee Hirschi shares that in their discussion concerning the \$5M that Cheryl is able to go out and look through all 27 facilities throughout the entire district for how we move forward strategically. We have said that there is going to be 27 libraries but does there have to be 27 libraries. Trustee Hirschi's understanding from the Budget Committee was that we don't want Cheryl and the administration hamstrung; that we need to be looking at what it could look like in possibly 10 years from now and how we get ourselves aligned for future services within the Timberland Regional Library as a whole. With population shifts and changes in technology,

we just want to give her the ability to look in a holistic way while at the same time keeping close to communities and being aware of the opinions and concerns of those communities.
