DESCRIPTION OF THE DISTRICT

Timberland Regional Library (TRL) provides library services to the residents of five counties in Southwest Washington State: Grays Harbor, Lewis, Mason, Pacific and Thurston Counties.

Citizens voted in November, 1968 to unite the five counties into one library district, the Timberland Regional Library (TRL). TRL services started in 21 libraries with Becky Morrison as the first Executive Director. Since 1968 TRL has

TRL is an Intercounty Rural Library District and is funded by property taxes and timber sales in the 5-county area.

In the late 1960's the Washington State Library Commission initiated a demonstration project to improve library services in Grays Harbor, Lewis, Pacific and Thurston counties in response to requests from the counties' residents. Through this cooperative effort, library services were consolidated to create a more efficient and economical regional operation, to increase the size of the library collections and to provide service for the first time in several rural communities.

provided information, reading and lifelong learning services at 27 libraries and 5 library service partner locations by offering nearly 1.7 million items to more than 400,000 people.

Not only were community libraries added when opportunities and dollars permitted, but the library has proactively introduced state-of-the-art electronic services in order to provide residents with the best available library service; to provide access to all, regardless of physical limitations or geographic location; and to increase the potential of success for everyone in the system's five counties.

FRAMEWORK

Library Mission Statement

Timberland Regional Library provides:
Information, Resources, Services, and Places
Where all people are free to:
Read, Learn, Connect, and Grow

Library Vision Statement

For every reader, the best book
For every question, the best answer
For every need, the best resource
For every encounter, the best experience
For every library dollar, the best value
For every person, a place to belong

Approved by the TRL Board of Trustees, March 23, 2005

Poseidon's Fish Market – Rick Riordon

AN INTRODUCTION TO TIMBERLAND REGIONAL LIBRARY'S 2012 BUDGET

Introduction of the 2012 budget requires reference to Timberland Regional Library's Action Plan for 2012-2013.

The Timberland Regional Library Action Plan combines library services planning with budget planning in an effort to create a roadmap for success that serves the unique and changing needs of the people in the library district...

Timberland Regional Library views its branches as the new "commons" of its many communities. TRL will grow and evolve to continue to be the doorway to reading, technology resources, and lifelong learning, a center for people and their ideas to come together. That vision drives our planning; it reflects the world of 2012 and beyond and gives TRL the flexibility to respond to constantly changing needs.

The 2012 TRL budget was built around the key initiative of information gathering from many different groups: library users, non-users, staff, community partners, key community stakeholders and the local business community.

Many viewpoints are needed. In an article, "How to Make Your Library Great," Project for Public Spaces (PPS) states, "To succeed today, libraries must master many different roles-some traditionally associated with libraries, some not. Their new, multi-faceted missions must be supported with great design, strong amenities,

and popular programs. That's a lot to juggle, but when everything works together, libraries become places that anchor community life and bring people together."

Placemaking is the core idea to Project for Public Spaces. It is a multi-faceted approach to the planning, design and management of public spaces. Put simply, it involves looking at, listening to, and asking questions of the people who live, work and play in a particular space, to discover their needs and aspirations.

Innovative libraries aren't just repositories of information; they want to foster healthy dialogue.

Information gathered in 2012 will assist in the development of a

common strategy and detailed plan for the ongoing planning process of 2013 and beyond. The ultimate goal is the creation of a library as a community center that catalyzes community revitalization with an influence that extends beyond its physical location, inspiring young children and their families to love learning for generations to come.

Anaïs Nin stated, "There came a time when the risk to remain tight in the bud was more painful than the risk it took to blossom." The purpose behind the key initiatives within TRL's 2012 budget is to ensure that the district has a place in our world and is essential to each community's quality of life.

Special thanks to all who have contributed, to our patrons for their continuing support and to our amazing staff who have never failed a challenge.

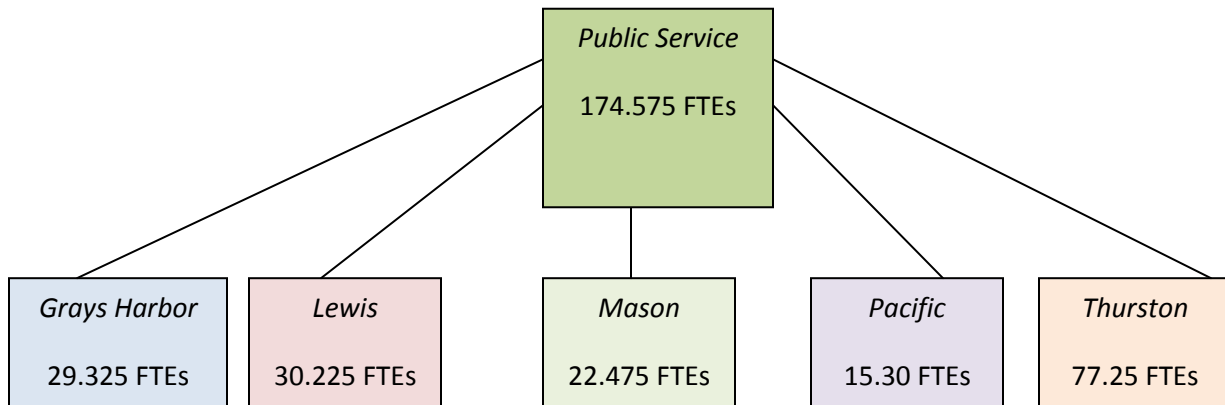

"The 2012 TRL Budget was built around the key initiative of information gathering..."

2012 BUDGET PRIORITIES WITH RELATED INITIATIVES

Budget priorities for 2012 reflects the need to be nimble in a fragile economy, responsive to our various communities and attuned to technological advancements, in addition to other needs.

- Implement survey instruments to evaluate community needs.
 - Counting Opinions, Online Survey Tools, \$14,000.
 - District wide survey mail-out, \$25,000.
 - Nine district wide community chats, \$2,000 board travel.
- Employ a public service model in 2012 that resembles the 2011 model.
 - Library FTEs up to 174.575 from 172.075; a change of 2.5 FTEs, or 1.5%.
- Plan for public service initiatives that work in concert with the budget planning process.
 - Provide for Teen/Tween programming, \$10,000.
 - Provide for special events youth programming, \$10,700.
 - Provide for 2012 Imagination Celebration, \$1,500.
 - Provide Courier service on a 6-day schedule; include Monday route.
- Develop a ten-year facilities plan that establishes a comprehensive approach to providing and maintaining library facilities, including city-owned libraries.
 - Building fund projected at \$1,030,000.
- Allocate sufficient resources from the annual budget for the collection to address patron demand.
 - 15.3% allocated to collections budget.
 - \$200,000 included for initiation of demand e-titles.
- Plan for major information technology initiatives that will be driven by information gathered from internal and external users, ensuring financial commitments made in a measured manner.
 - Auto-circulation fund spending projected downward to \$95,276 from \$564,750 in 2011.
- Plan for human resources requirements as an ongoing evaluation process, responsive to operational needs.
 - Govnermentaljobs.com (NEOGOV) obtained 10/31 to handle application and review process, \$14,000.
 - 2,929 2011 applications have been received to-date for 46 job openings.
 - 175 applications received for one open circulation position alone.
 - After NEOGOV implementation 1,097 applications, 13 vacancies have been received through 12/28, increasing application submissions twofold.
 - Add .20 FTE Courier position to handle Monday service route, \$6,361.
 - Add .25 FTE to current Graphic Design positions in order to handle demand for publicity requests, and produce more video and web content, \$13,119.

<i>Westport</i> 2.5 FTEs				

BUDGET SUMMARY

In times of growing expenditures and flat revenues, the attainment of financial equilibrium requires constant balancing of core services in order to stay ahead of impacts. The primary focus for 2012 is to maintain consistency of the 2011 service model.

GENERAL FUND REVENUE SUMMARY

ESTIMATED 2012 REVENUE: \$20,130,592

Property Taxes:

Property tax revenue shown in the budget equals the anticipated levy amount even though actual collections could be less due to administrative refunds and non-collections. The property tax resulting from the certified assessed valuation will become the new “highest lawful levy” that will be used to once again calculate the levy limit for next year’s property tax levy (for collection in 2013).

Please note: As of December 28, 2011 Grays Harbor County has not certified their levy calculations due to an industrial account that stipulated.

Year	Property Tax Receipts	Increase from Previous Year	Levy Rate/\$1000 A.V.
2009	\$16,425,603	6.5%	.3292
2010	\$17,206,361	4.75%	.33894
2011	\$17,602,406	2.3%	.35688
2012 (Forecast)	\$18,083,710	2.7%	.37962

Property values dropped -4.5% in 2011; in 2010 the district value dropped -2.9%. Due to the elasticity in our levy rate, TRL is able to increase the 2011 levy rate for 2012 collection to approximately 37.962 cents.

With the implicit price deflator above 1%, TRL is able to levy for the maximum increase of 1%. This amounts to approximately \$180,000 in new resources. In addition, new construction values, although at a low point not seen since 1999, bring in approximately \$180,000. Property taxes amount to 90% of all Timberland Regional Library resources.

	2011	2010	Inc./ (Dec.)	Inc./ (Dec.)
New Construction	\$500,213,285	\$540,669,841	(\$40,456,556)	-7.5%
Property Values	\$47,635,783,443	\$49,855,416,359	(\$2,219,632,916)	-4.5%

Contract Fees:

Three cities will be paying contract fees in 2012, Winlock, Raymond and Hoquiam.

Hoquiam's annexation vote passed on November 8, 2011 by a rate of 72.72%. But, since the vote was held after the boundaries of the district were set on June 1st, a bridge agreement is necessary to cover the contract fee for 2012 services. Accompanying this agreement will be a promissory note to repay the 2012 contract fee amount over 10 years at approximately \$20,955 per year.

Timber Revenues:

June 2011 DNR Economic and Revenue Forecast Highlights:

- Price of DNR Log went up eight months in a row to high of \$502/mbf; attributed to exports to China.
- Lumber prices falling to \$272/mbf in April, putting the pinch on state's lumber mills.
- Delayed recovery of the US housing market will act to drag down DNR timber stumpage prices over the next 2/3 years.
- Timber removal volume and prices increased due to the run-up of log prices.

Assumptions:

- Export of raw logs from private lands will remain at sustainable levels; equating 22% of total log receipts.
- Timber receipts will fall back to 2010 levels, influenced by DNR's sustainable harvest calculation and indirect upward pressures on timber sale prices from export prices.

Timber Revenue:

	2009	\$1,059,399	
	2010	\$1,292,123	21.97% Increase
	2011	\$1,563,968	21.04% Increase
	2012	\$1,310,000	-16.24% Decrease
\$280,000	Private Forest Timber Harvest Tax		
\$360,000	DNR State Forest Land Sales		
\$550,000	DNR Timber Sales/SFT		
<u>\$120,000</u>	DNR Timber Sales/County		
<u>\$1,310,000</u>	Total budgeted for General Fund		

Service Fees:

With an increase in e-content is a projected decrease in fee revenue of both printing fees (\$9,000) and fines (\$16,659).

Interest Earnings:

Earnings from idle cash are projected to be at 1.1%. Even at that low rate, Thurston County Investment Pool is outperforming the Local Government Investment Pool.

									\$ 20,496,959

GENERAL FUND EXPENDITURE SUMMARY

ESTIMATED 2012 EXPENDITURES: \$20,196,959

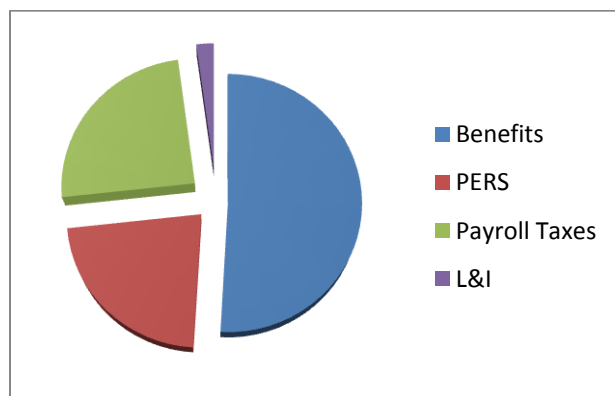

Salaries and Benefits:

The two biggest cost drivers behind the 2012 budget include building operations and maintenance and benefits; benefits are familiar. Fringe benefits are projected to be at 31.1% of wages. In 2000 that percentage was 23%.

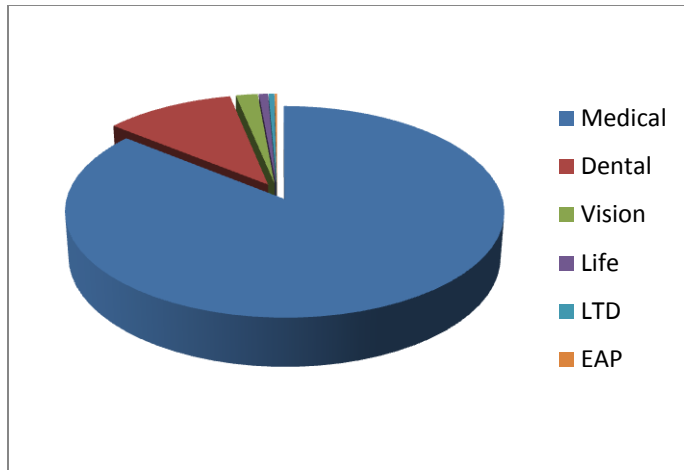

If the 2000 benefits rate were to be applied to the district's 2012 salaries base the district could save \$877,396. Budgeting in 2012 is much more complex than in the past.

Fringe Benefits are comprised of the following:

MED, DEN, VIS ETC.	\$1,722,452
PERS	\$756,035
PAYROLL TAXES	\$831,148
L&I	\$73,002

MEDICAL	\$1,477,864
DENTAL	\$188,500
VISION	\$31,477

LTD	\$8,490
EAP	\$3,096

Public Employee Retirement System employer contributions are based on the State Actuary's rate recommendation; however, the State Legislature has final say on rates and may not accept the recommendation, which we won't know until the next legislative session is over.

Services:

Included are dedicated funds devoted to teen/tween programming of \$10,000, to concur with the 2012 Summer at the Library theme, "Own the Night."

"Dream Big-Read!" for children will remain funded at 2011 levels.

Timberland Reads Together for adults will remain funded at 2011 levels, with the dystopian novel, "Fahrenheit 451," selected as the title to read.

Collections:

The collections budget baseline for 2012 is \$3,086,605; an increase of 12.5% of the 2011 baseline number, and 15.3% of the 2012 budget.

Downloadables will see the biggest increase in 2012 with an additional \$163,000 in spending. At an increase of 34.4% from last year, downloadables will now be 20.6% of collections spending in 2012, up from 17.3% last year.

Maintenance & Repairs:

With the Yelm facility lease ending December 31, 2011, the role of Timberland changed from lessor of the Yelm Library to stakeholder. Part of the agreement is that Timberland will take on added responsibilities for building operations and maintenance services.

GENERAL FUND BALANCE

My goal in presenting an annual budget is for current year revenue to equal or exceed current recurring year expenses without use of the fund balance. This year, with conservative estimates for both timber and property tax revenue, we are within .2%.

The 2012 beginning fund balance is based on our projected 2011 ending balance.

Projected Ending Fund Balance 2011	\$8,623,026
Actual Ending Fund Balance 2010	<u>\$8,291,905</u>
Increase to Reserves, 2011	<u>\$331,121</u>

Transfers Out:

Transfers to Building Fund, Auto-Circulation Fund and Unemployment Fund are determined by funds that exceed expectations. 2012 transfers include the following:

Fund	Transfers Out	Transfers In
General Fund	\$300,000	
Building Fund		\$250,000
Auto-Circulation Fund		\$24,000
Unemployment Fund		\$26,000

Goodbye to Harry Potter Party
