Part 1 – Overview of Budget

Library Director's Message

The 2018 Budget continues to support Timberland Regional Library's (TRL) six Service Priorities that make up the *Strong Communities: Building Our Future* 2014-2018 Strategic Plan:

Strengthen Families and Youth
Support Local Economies
Support Community Engagement through Culture, History and the Arts
Promote the Library as a Community Gathering Place
Enhance Collections & Technology
Foster a Supportive Work Environment

TRL's 2018 budget process was collaborative and thorough, achieving transparency and accountability. TRL continues to be fiscally conservative stewards of the public's resources, at a time when property taxes have seen slight increases in most of the five counties, timber revenues have fluctuated in all counties, and labor costs are increasing.

This message includes narratives that outline the work of staff from each library and department that links directly to TRL's Strategic Plan and mission to "invite discovery and interaction with our vibrant collection, services and programs for learning, enrichment, and enjoyment for people of all ages in our diverse communities."

As TRL enters its' 50th year in 2018, there is much to celebrate and much more to accomplish. Highlights of the upcoming year include 50th celebrations from January – June, the introduction of "The Reimagined Library," (TRL) an initiative seeking input from community members for TRL's next Strategic Plan and a Capital Facilities Plan, a re-designed website, and MyTRL program expansion to additional school districts.

TRL's values of service, integrity, collaboration and community focus continue to drive our messaging and strategies as an organization that is determined to meet the needs of nearly half a million residents of Grays Harbor, Lewis, Mason, Pacific and Thurston Counties.

Respectfully,

Cheryl Heywood

The summarized version of the 2018 Final Budget for the General Fund is presented above as a balanced budget where expenditures match new revenues. A discussion of revenues and expenditures follows.

General Fund Revenues

The 2018 Final Budget was developed based on recent financials trends. Revenues from property taxes comprises 91.5% of all revenues received by TRL. It is essential for TRL to project these revenues in advance to plan spending for the budget. By state law, the maximum levy limit for library districts is \$0.50 per \$1,000 assessed property valuation. Currently, the levy rate for TRL is \$0.38 per \$1,000 assessed property valuation.

The second largest revenue stream for TRL is timber revenue received from the five counties. This revenue accounts for 6.3% of the TRL budget. Timber revenues can fluctuate considerably from year to year based on actions of the Department of Natural Resources, the market price of lumber, impacts from environmental regulations, and the Endangered Species Act. Due to how volatile timber revenues can be, a conservative budget approach for these revenues is used by TRL.

For 2018, revenues are budgeted to increase by \$162,272 or 0.7% from 2017 budgeted amounts. As discussed earlier, property tax revenue is a majority of total revenues for TRL. Property taxes increase by assessed property values increasing as well as new construction and property improvements. Despite some regions in Washington State experiencing strong increases in property values, a majority of TRL districts are seeing minimal increases in their property values. Likewise, most counties in the TRL district are not seeing great increases in new construction.
